Gloucester Treasurer's Office Now Accepting Online Payments for Permits

The Gloucester County Treasurer's Office began accepting online payments for permits in early June. Individuals who have applied for permits in the Planning and Zoning, Building Inspections and Environmental Departments may now pay for those permits online through the County's website at www.gloucesterva.info. The secure service is user-friendly and will allow payments by credit card, debit card or electronic check.

According to Gloucester County Treasurer, Tara Thomas, "One of my ongoing goals as County Treasurer has been to continue improving payment options for taxpayers and those that wish to conduct business in Gloucester. This service allows anyone, including contractors out of the County, to pay their permit fees from anywhere. This has been especially helpful during tax season when our office is busier than usual with walk-in customers."

There is a convenience fee charged by the third-party payment processor for this service.

For information call the Gloucester Treasurer's Office weekdays from 8am to 4:30 pm at (804) 693-2141, or visit the County website at Gloucesterva.info and click on "Payment Options".
