New Interim County Administrator Hired for Gloucester

The Gloucester County Board of Supervisors has unanimously approved the hiring of Mr. Sandy Wanner to serve as the new Interim County Administrator for Gloucester County. Mr. Wanner has 25 years of local government and 6 years of public school administration experience. He most recently served as County Administrator for James City County retiring in July 2010 after 14 years of service in that role. During his tenure as County Administrator, Mr. Wanner had the opportunity to work collaboratively with Gloucester County officials to successfully expand the regional public safety communications system into Gloucester. Prior to serving as the James City County Administrator he served as Assistant County Administrator for the county and general manager of the James City Service Authority. Previous work experiences include working for Williamsburg-James City County Public Schools and Fredericksburg Public Schools, following a career with the United States Marine Corps. Mr. Wanner holds a Master's Degree in Administration from George Washington University.

The board selected Mr. Wanner from a list of interested government professionals provided through regional contacts and the Virginia Institute of Government which assists localities in finding interim administrators. Mr. Wanner commented "I am honored to be asked to serve the historic County of Gloucester and look forward to serving citizens through the Board of Supervisors and staff."

Mr. Wanner replaces Mr. Garrey W. Curry, Jr., Gloucester's Assistant County Administrator, who agreed to serve temporarily until the board selected and hired an Interim County Administrator.

Mr. Wanner will begin his service to the County of Gloucester on Wednesday, May 6, 2015.
