Immediate Media Release

Gloucester County residents will have a chance to participate in a Parks, Recreation & Tourism Needs Assessment Survey to determine the community's desires for programs and facilities. The survey will help direct planning for public parks and recreational facilities, along with programs and services, for the next five to ten years.

Residents who receive the survey in the mail are asked to fill out and return it within 10 business days. This survey will be only be distributed to a random sample of households so input is very important. Residents who don't currently use the County's parks, recreation and cultural programs are still encouraged to respond. Survey recipients will have the ability to fill out the survey online with a specialized link and password, and those who complete the survey and enter the drawing are eligible to win one of five \$50 gift cards to Walmart.

An open survey will be available to the general public in the coming weeks, and a link will be available from the Parks, Recreation & Tourism website.

For more information, call Parks, Recreation & Tourism at 693-2355.
