Please mark your calendars for
THURSDAY, OCTOBER 24, 2013
10 a.m. – noon
for a
Stormwater Information Session
In the Colonial Courthouse

Gloucester Environmental Programs Office is seeking your input on the development of the stormwater program legislated for local adoption by July 2014.

The session will include an explanation on Gloucester County's progress to-date on ordinance development; design concepts associated with state-level regulations applied at the local level- drainage design for water quantity and quality; changes in design criteria for water quality (Run-off Reduction Method, Energy Balance Equation); plan-approval 'grand-fathering'; DRAFT version of the stormwater handbook; and similarly related issues. Complete information on the stormwater material is provided on the Commonwealth's website at <http://www.deq.virginia.gov/Programs/Water/LawsRegulationsGuidance/Guidance/StormwaterManagementGuidance.aspx>.

DEQ staff administering the program at the state level will be invited to participate in the session.

Additional information concerning the session may be obtained by calling Gloucester County's Environmental Programs Office at (804) 693-1217.
