Public Utility Bills Changing Beginning January 1, 2014

Beginning January 1, 2014, Gloucester County citizens who receive water and sewer bills will notice a change in the appearance of the bill. Gloucester County has hired a third party company, Datamatx Inc., to streamline the process of printing and mailing the bills. The county decided to change to a third party company in order to save money on postage.

The new bills will have a different format that will now include a usage history for a period of one year. Included in the first couple of mailings will be a layout sample to explain the new changes.

Payments for water and sewer bills will continue to be handled through the Gloucester Treasurer's Office and can be paid in person, in the drop box or online. For more information or questions on the new bills, please contact Public Utilities at (804) 693-4044.
